

CARAVAGGIO OPAL P2

Designed by Cecilie Manz 2008

Caravaggio Opal P2

Caravaggio Opal P2 pendant combines the characteristic design with a completely different lighting effect. The Opal glass shade gives out a soft, dimmed light which is particularly suited for rooms where a more evocative lighting is required. Thanks to the transparent white glass, the light is emitted in all directions and therefore also lights up the lamp itself. In this way the lighted lamp appears as a floating drop of light, which in itself is very evocative, and at the same time wraps its surroundings in a soft, pleasant light. The Caravaggio Opal pendant is suspended by the three well-known brackets which here form a raw and masculine contrast to the feminine opal glass.

Surface

Opal glass.

Material

Shade: Hand blown opal glass.

Suspension: Curved steel rods and turned brass coated in matt chrome.

Installation

Suspension: Silver textile cable 2x0,75mm².

Canopy: White. Cable and wire length: 3m.

Suspension: Adjustable with wire.

Class

IP20, Class of insulation II.
